

**General Manager****Jericho Tennis Club**

Vancouver, BC

Along the pristine shores of Vancouver's Jericho Beach hides one of the city's most, welcoming private clubs. Jericho's clubhouse stands as an architectural landmark of glass and light that still feels like a Vancouver secret.

Jericho is a club like no other, with year-round tennis on 12 courts, 4 international-sized squash courts, beachfront water sports, an expansive ocean-side pool and deck, fitness facilities with unparalleled views of English Bay, outstanding food and beverage facilities and the beloved grassy knoll where people gather to picnic and barbeque.

What is exciting about the Club is the desire and commitment to continually drive forward in their quest to be exceptional, whether it is with the pool and courts, an innovative approach to dining, or stronger tennis and squash programs. The members want the values and culture of the Club to remain constant but the facilities and programs to move with the times. With an older demographic, harnessing the needs of new members is definitely on the minds of the leadership team.

The Board has initiated a search for a General Manager who is an empowering, engaged, visible and collaborative operational leader with strong financial and business acumen. They must have authentic and genuine interpersonal and communications skills, the knowledge and experience to support the Board in developing a strategic plan and cascading operational plans, a commitment to exceptional member services, the judgement and tact to deal with challenging member issues, and the vision to help the Club evolve with the changing needs of the membership without losing the essence of what makes the Club a very special place.

The ideal candidate has a track record of success as a highly successful, engaged, business-savvy leader in the hospitality/club world. They understand governance and can support their Board in driving forward on strategic endeavours. They foster a strong team environment and believe in performance management. Most importantly, they believe in accessibility, consultation and member participation. They understand the importance of being visible throughout the Club and taking an interest in the membership and every aspect of the club operations. They are not afraid to have tough discussions and conduct themselves in a tactful and diplomatic manner. Respect and integrity are core values. The candidate, through their professional, volunteer or athletic endeavours, also understands the underpinning of great athletic programs and tournaments.
